-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 05 March 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

- 4) ☒ Claim(s) 1-6 and 10-19 is/are pending in the application.
- 4a) Of the above claim(s) 15-19 is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 1-6, 10-14 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

**Application Papers**

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

**Priority under 35 U.S.C. § 119**

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some \* c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
  2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
  3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

**Attachment(s)**

- 1) ☐ Notice of References Cited (PTO-892)

- 6) ☐ Other: \_\_\_\_\_

### **DETAILED ACTION**

Applicants response filed 0305/2009 is acknowledged.

Claims 1, and 2-6, 10-14 are under prosecution.

Response to Applicants Remarks:

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Previously presented rejection of claim 1 and dependent claims maintained for reasons of record. Applicant's arguments were fully considered but are not persuasive for the following reasons:

Applicants state that as currently amended the definition of F clearly excludes a sulfoalkyl group (alkyl sulfonic acid group). However, instant claim 1 numbered page 3, line 4-7 states that F can be alkyl groups substituted with sulfonic acid group (as taught by the prior art references cited in the previous office action) when R1 and R2 are not the listed reactive or functional or affinity group; further the F affinity tag is defined as sulfoalkyl group.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Previously presented rejection of claim 1 and dependent claims maintained for reasons of record. Applicant's arguments were fully considered but are not persuasive for the following reasons:

Response to remarks on 102 (b) reasoning (see above).

Response to remarks on 103 reasoning:

Applicants state that Leung teaches that attachment at the 3-position confers advantageous properties and such modification fall outside the scope of the present claims. Though in sections pointed out by the applicant, Leung talks about the 3-position modification, there is nothing in the Leung reference to teach away from modification at other positions of the indolium ring. Throughout the document US 6974873 Leung does not exclude attachments at other positions of the formula. At the minimum, applicant's compounds are positional isomers of Leung's compounds. To one skilled in the art positional isomers are obvious variants of one another. The structural backbone of the cyanine molecule responsible for the fluorescence properties are the same in the compounds of the prior art and the instant case; the attachment of commonly used substituents to

Art Unit: 1625

this backbone to make alternate forms of prior art compounds for routine optimization of properties is within the repertoire of one of skill in the art.

New grounds of Rejection necessitated by amendments to claims:

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 defines F as either of three possibilities (layered on top with additional possibilities). It is unclear whether applicant intends to exclude alkyl sulfonic acid groups for possibilities for R1 and R2, because when R1 and R2 can also be alkylsulfonic acid group when R1 and R2 are not the said E-F possibilities; see page 3 of 13 of instant claim, lines 4-7. Also see applicants Remarks with regards to exclusion of sulfonic acid group possibility for F.

Claims 1, and 2-6, 10-14 are rejected.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed

Art Unit: 1625

within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
